

CLASS Telescope Donor Levels

- \$25,000 per year for two years totaling a \$50,000 current use gift to partially support undergraduate and graduate students as well as Assistant Research Scientists. Those funded will provide the donor with two annual reports. Donor is invited to visit the department and meet members of the team.
- \$75,000 per year for two years totaling \$150,000 current use gift to fully fund an Assistant Research Scientist. This is as a named appointment and all scientific papers produced by the Fellow will cite the donor. This post-doctoral scientist will provide the donor with two annual reports on his/her work. Donor is invited to visit the department and meet the scientist. Donor is also invited to meet faculty and Advisory Council members at the private dinners scheduled around the full Council meetings.
- \$1,000,000 current use to name the CLASS Operation Center located in Chile. A plaque will be placed on the Center with the donor's name. All of the above recognition will be afforded the donor plus worldwide media references to the named Operations Center. Donor receives a private annual meeting with Professors Bennett and Marriage.
- \$1,000,000 current use to name the CLASS Data Analysis Center in Baltimore. All of the above engagement opportunities are available to the donor.
- \$5,000,000 to name the entire CLASS Observatory covering all four telescopes and the associated site operations in Chile and Baltimore. The donor's name will be cited in all worldwide media and scientific papers and will be afforded close access to Professor Bennett.

Approved by Chuck Bennett and Tim Heckman. July 30, 2015
